to date little analysis exists of the criminal process's roles as a regulator of medical practice and as an arbiter of bioethics nor whether criminal law is an appropriate forum for judging ethical medical dilemmas the conscription of criminal law into moral controversy and the perceived rise in criminal investigations of medical errors sets the backdrop for this innovative historical and theoretical analysis of the relationship between medicine bioethics and the criminal process case studies on abortion end of life and the separation of conjoined twins reveal how judges grapple with bioethics in criminal cases and the impact of theatre on the criminal law's response to ethically controversial medical cases a central argument is that bioethics and criminal law are not necessarily incompatible rather it is the theatre surrounding interactions between bioethics and criminal law that often distorts and creates tension

frontiers in pharmacology is delighted to present the reviews in ethnopharmacology 2023 series of article collections reviews in ethnopharmacology will publish high quality scholarly review papers on key topics in ethnopharmacology it aims to highlight recent advances in the field whilst emphasizing important directions and new possibilities for future inquiries we anticipate the research presented will promote discussion in the ethnopharmacology community that will translate to best practice applications in clinical public health and policy settings the reviews in ethnopharmacology 2023 collection welcomes full length mini or systematic review papers new articles will be added to this collection as they are published this collection welcomes manuscripts that focus on the following themes 1 translational potential of traditional medicinal plants in cancer prevention 2 ethnopharmacology of mental health disorders insights from traditional healing practices and scientific validation 3 ethnobotanical approaches for combating antimicrobial resistance 4 traditional medicine in the digital age opportunities and challenges 5 herbal medicine and chronic disease management a global perspective 6 ethnopharmacology and sustainable development balancing conservation and community health 7 ethnopharmacology of traditional chinese medicine bridging ancient wisdom and modern science 8 medicinal plants used in ayurveda exploring traditional knowledge and contemporary applications all the manuscripts submitted to the collection will need to fully comply with the four pillars of best practice in ethnopharmacology you
